To whom it may concern,

In a time when so few things go right, I want to acknowledge when a task goes well. Therefore, I would like to thank Proctor McInnis and McInnis Builders LLC for a job well done. My office building suffered significant damage as a result of Hurricane Michael. The initial weeks following the storm was a very trying time, assessing damage and determining what our response would be. It was then that McInnis convinced me that we could rebuild and conceivably resume practice with little delay. It was a great relief to no longer need to find another building. Not only was reconstruction an option, but the project launched less than 4 weeks post-storm. We were back in business; limited in space and resources for several months, but functional nonetheless. Proctor McInnis and project manager Bob "The Builder" Blake organized and executed an operation that went more smoothly than any of us expected.

McInnis Builders has been a contractor for many multi-million dollar projects. My building was far from that, but I can't imagine any building getting any higher level of attention in both planning and execution; every team member of McInnis Builders LLC on our project went above and beyond. Bob Blake had daily morning meetings with his crew and our office staff, always ending with his assurance the he would "handle it", which he always did.

McInnis Builders LLC is very selective when it comes to his subcontractors, which has been evident through this reconstruction process. Approximately four months after Hurricane Michael, we had a fully operational building back in practice. Therefore, if happiness is when reality exceeds expectations, I'd say I'm very happy. It is my honor to recommend, without reservation, Proctor McInnis and McInnis Builders LLC.
